HIGHLIGHTS

- **Agion:** the technology that makes products cleaner and longer lasting with built-in protection working 24/7 to resist the growth of microbes and the development of unpleasant odors.
- **Electronic control:** ambient and water temperatures may change throughout the years but your ice machine will stay the same (MF86/MF88 electromechanical board).
- **External indicator lights:** keeps ice maker's operations under constant surveillance.
- **Plug-and-work technology:** starts off and constantly produces ice thanks to a no-cycle harvesting system.
- **Water in / ice out concept** (no cycles, zero water wastage): limits to almost zero excess energy, water and time wastage.
- **Head only ice maker:** requires a separate storage bin to store the ice produced.

FLAKE and SUPERFLAKE ICE

Ice in its most natural shape,
highly versatile and suitable
for multiple applications.

Flake 15% residual water content
Superflake 25% residual water content
