KH II 800

BIZERBA

The K-Class II raises the bar for technology and design. Modular and uniquely versatile, it can be seamlessly integrated into even the most exclusive store design. An impressive high-performer in terms of advertising, advice and sales.

More information
High performance with a wide range of solutions and options.

Product description

The Bizerba K-Class II range achieves impressive results in all retail tasks: weighing, transactions, printing, advice, and the presentation of advertising and cross-selling. This makes the KH II 800 counter-top scale ideal for use at the fresh food service counter. With an optional large customer display, it is perfectly equipped to support service staff providing proactive advice. It can also be combined with cash drawer to create a highly effective checkout solution.

The open PC platform offers maximum performance, and it has enough reserves to cope with new features or customer-specific requirements in the future too. Even the use of 3rd-party software poses no problems.

The remarkably easy paper-change function sets the Easy Load printer apart. It is possible to replace key components using virtually no tools.

Daily cleaning of the scale can be completed quickly and simply too, thanks not least to its ergonomic design, Easy Clean surface of the housing and the frameless Easy Clean display.

KH II 800 with 12.1" operator display

KH II 800 with 12.1" customer display

Easy Clean display

Highlights
