

*The little bundle of power: safe - hygienic - strong.
Ideal when space is limited in kitchens, cafes or retail stores.*

Product Description

The Validoline VSC 220 offers all the benefits of a professional Bizerba slicer. Furthermore, it is particularly easy to operate and - thanks to intelligent details - absolutely safe for users. The removable parts are dishwasher safe and can be reattached in a matter of seconds.

The Ceraclean® surface is not only easy to clean, but also helps the sliced products to slide more smoothly over the carriage plate.

Thanks to its powerful motor, the VSC 220 is a match for its big brothers in terms of performance. It even slices Parmesan cheese right down to the very last crumb.

Functionality

- Ergonomic and precise: The 10° tilt for the blade ensures optimal ergonomics and a better overview.
- Robust and hygienic: The lightweight aluminum carriage is a one-part unit.
- Safe and easy: Thanks to its intelligent quick-release fastener system, the innovative blade cover is extremely simple to attach.
- Space-saving design: the carriage swings out towards the user, making the slicer ideal for areas where space is limited.
- New freedom: The motor tower leaves room for thick slices, even allowing slices of bread to be produced intact.

Features

- High-quality Bizerba components and Ceraclean® surface
- 10° blade tilt for even easier slicing
- No power consumption in stand-by mode
- Intuitive operation in line with the highest safety standards
- Detachable grinder for better safety and hygiene
- Juices from meat and other sliced products are channeled off
- Hygienic design thanks to one-piece machine casing and base plate
- Slicing thickness can be set, including fine-tuning
- Wiper, end-cut pusher plate and blade cover are completely removable
- Carriage swings out towards the user
