A650

BIZERBA

Longer, faster - and more efficient ...

The A650: Fully automatic slicer with integrated weighing technology for weighing of portions and individual slices – highly efficient with fully automatic product loading.

More information
High performance with a wide range of solutions and options.

Product description

Unique in its class - fully automatic slicer with integrated weighing technology for portioning and weighing of individual slices.

The Bizerba slicer A650 offers highest flexibility and efficiency, decorative slice depositing as well as portioning to precise weights of any product. Product remnants are minimized and overweight in target weight portions reduced by up to 15 % – for equalized as well as for naturally grown products. This is possible thanks to the unique weighing process during slicing.

The automatic product holder and the loading capacity for products of lengths of up to 900 mm contribute to throughput optimization.

A650

Highlights

- Slicing, fanning or stacking of almost any kind of sausage meats and cheeses - and usually without having to pre-frost.
- Compact construction, ideal for use in smaller rooms and relocation in wet area for cleaning purposes.
- Particularly easy, ergonomic and safe handling during production and cleaning; quickly available with flexible locations.
- Perfect target weight control with tendency control for exact number of slices.
- _statistics.BRAIN allows easy reporting of production parameters and line performance.
- The automatic product holder permits the simple fixation of products with a length of up to 900 mm without any exertion – your advantage: reduced setup times.
