

## Body Kit 211/311

### Features:

Panelling for base set-up of VarioCooking Center MULTIFICIENCY® 211 and 311.

Thanks to the panelling attachment, no soiling occurs underneath or behind the unit.

Cleaning is easier and the area around the unit is easier to keep clean.

Panelling is suitable for the MULTIFICIENCY® generation.

If the back wall should be higher than 877 mm, a space of 50 mm to the back wall must be guaranteed. We recommend installing a 50 mm spacer frame.

### Body Kit

VarioCooking Center MULTIFICIENCY® 211: 60.30.916

VarioCooking Center MULTIFICIENCY® 311: 60.30.917
