

Specifications/data sheets

Basket cart model 112L, 211, 311

Article number:

60.73.612

Features:

- AutoLift, the automatic raising and lowering mechanism, guarantees you perfect cooking of pasta, deep-fried, poached or boiled products and raises the products from the pan at the desired time.
- The basket cart has been developed especially for the VarioCookingCenter[®] accessories and has sufficient storage space: In addition to the boiling and deep-frying baskets for models 112L, 211 and 311, GN containers can also be transported and stored.
- On the side there is a bracket to which the arm for the automatic raising and lowering mechanism AutoLift (model 211, 311) can be attached. This means that even bulky accessories can be stored away to save space.
- Safety for the basket cart is optimised by the stopper on each end of a tray. This will prevent the baskets and containers from slipping out during transportation. The cart also has two castors with parking brakes to secure the park position.
- Thanks to the electropolished material, the cart is extremely easy to clean.

Technical data:

- Dimensions: 583 mm x 416 mm x 1522 mm
