

## Product data sheet — Gas lava stone grill Argentina 2

MKN-No.:  
2061602

Cooking appliance according to DIN 18852 for application in the commercial preparation of food in the general catering industry, front cooking, free flow systems and snack bars. For cooking with contact heat, for frying of quick-fried pieces and for grilling meat and vegetables.

## Technical highlights

### Material:

Casing and cover are made completely of CNS (material No. 1.4301) / AISI 304.  
Visible surfaces with polished and satin finish, 320 grit.

### Bendings:

Cover bent downwards 50 mm at the front and on the sides, bent upwards 25 mm at the rear. Designed as a drip edge at the front on the bottom side. 50 mm cover projection closed to the appliance body. With tightly welded drain channels on the side – rounded (R30) at the rear.

### Body:

Buckling resistant, self-supporting, closed construction with side walls, rear wall and bottom.

### Control panel:

Control panel with profile to protect the control elements, can be taken off at the front for simple and cost-efficient service access. Ergonomically shaped knobs for a easy identification of the position.

### Effective area:

CNS/stainless steel grid with V-formed grid bars to drain off the dripping liquids into the collecting pan at the front. Grid in 2 parts and adjustable in height. Two adjustable heating zones. Heat distribution by means of the hot glowing stones below.

### Installation:

Equipped for installation of appliance feet which are adjustable in height (optional) or for installation on a plinth provided by customer.

### Type of energy:

Appliance is completely tubed internally in accordance with gas requirements. Gas connection by means of a gas appliance tube attached to a gas socket (DN 15) with shut-off valve.

### Special feature:

### Heating:

Heating by atmospheric linear burners, thermoelectrically protected. Piezo ignition for the ignition burners to start up the main burner.
