

## Disassembling

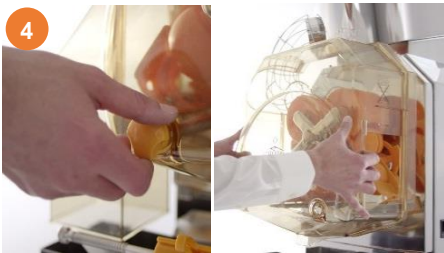

1 Ensure that no oranges remain in the machine. Turn off and unplug the machine before cleaning.

2 Remove **fruit basket** and **rotation plate**. Please clean the fruit tub accurately!

3 Remove the **splash protector** & the **side chutes** by pressing the fixation clip.

4 Remove the **front cover screws** & take off the **Front Cover**.  
*Not dishwasher safe!*

5 Remove the **Cross Holder** by loosening and pulling the screw.

6 Take off the **peel ejectors**.

7 Take off the upper and lower **pressing elements**.

8 Remove the **SCS knife** by moving it upward and pulling it off.  
**CAUTION! Risk of injury!**

9 Take off the **fruit supply tunnel** by opening the fixation lever.

10 Take off the **Double Cover**. Clean front with clear water and wet cloth.

11 Remove the **MTS-System** and disassemble the **MTS-Pusher**. (by pressing the fixation clip)

12 Unscrew cap-screw to remove **fruit sieve holder**. Then remove the **juice tank** from the machine.

13 Remove the **peel chutes** & if available the **bucket** below. (clean the peel disposal area)

### ! Recommendation!

For extra thorough cleaning use XON-Forte and put the parts in the dishwasher after a few minutes of exposure.

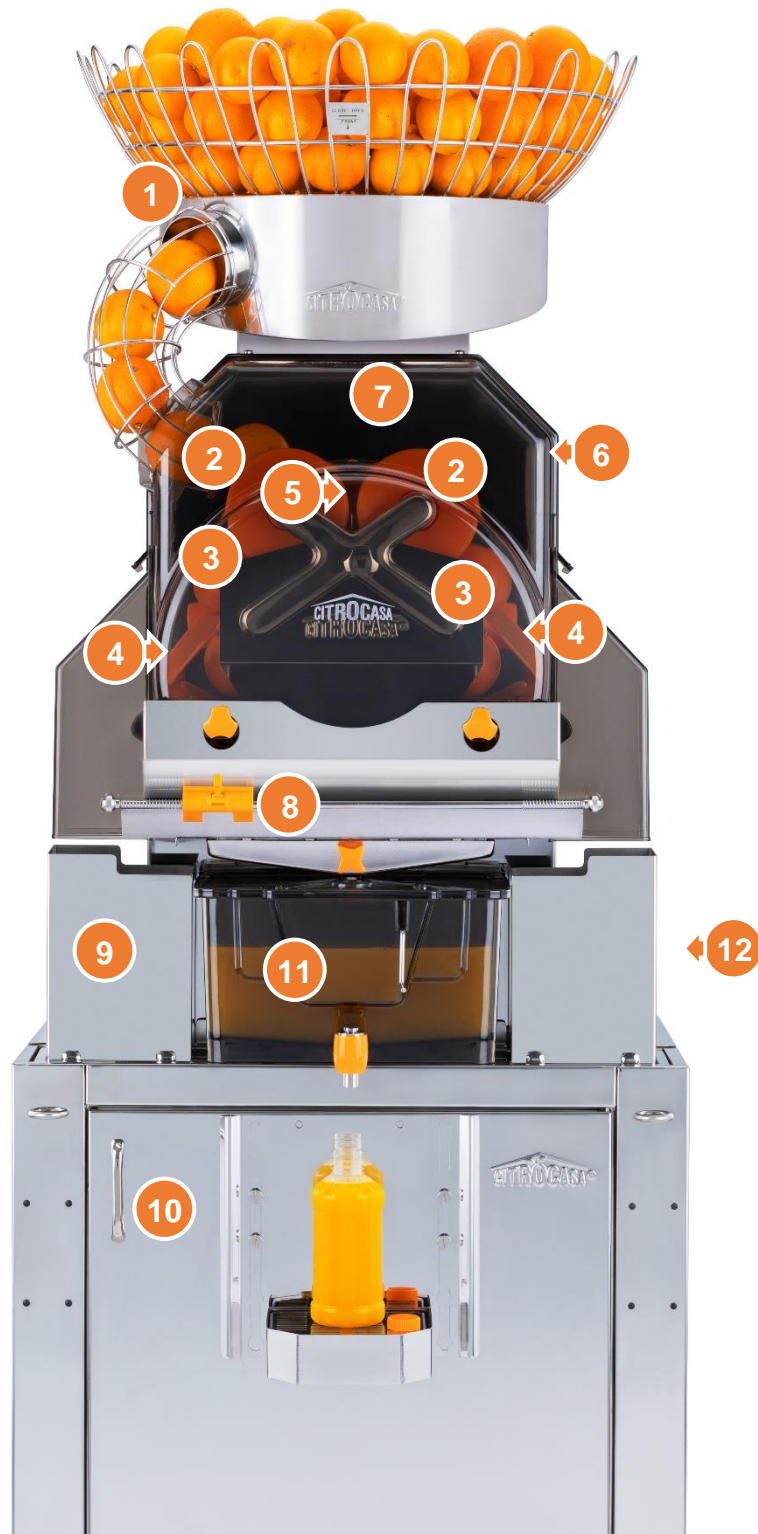

## Assembling

**Assemble** the machine parts in reverse order. Ensure that the **Cross Holder screw** is fixed tightly. We recommend to clean the machine twice within 24 hours.

All machine parts, except the **Front Cover** and **XB-Tank**, can be cleaned in the dishwasher.
