

THE NEW 7-INCH TOUCH CONTROL: AS EASY AS A SMARTPHONE SCREEN!

With innovative design and technology, the new TouchScreen 7 blast chiller range is modern, ergonomic, powerful, reliable and functional thanks to a new 7-inch screen for intuitive operation. From the smallest blast chiller on legs to roll-in blast chillers, the TouchScreen 7 meets all user needs with a simple and obvious interface! It is easy to use with no specific training required. A main menu provides easy access to the intelligence of the equipment for:

- Chilling
- Freezing
- Programming
- Carrying out special cycles (thawing, ice cream hardening, raw fish sanitising, etc.)

Numerous auxiliary functions are also available, such as multi-probe cycles or UV disinfection.
